- Spoken dialogue app (multimodal)
- Uses the Talkamatic Dialogue Manager
  - Domain-independent
  - Delivers flexible dialogue
  - Minimizes effort to writing new apps

Radiomatic BETA

Talkamatic LABS   Musik och ljud

PEGI 3

Den här appen är kompatibel med din enhet.

- Connects to Swedish Radio's open API
  - Minimal functionality so far: listen to radio channels, search for programs based on channel and genre, play, pause
  - < 800 lines of code, major part is the API connection
- Available in Swedish for Android in Beta on Google Play Store
